

FLEXAHOPPER PLASTICS LTD

COMMITTED TO

AGRICULTURE.

For more than 50 years, we have excelled at designing products to meet the specific needs of the Agricultural Industry. Our product lines have delivered the best farm - tested designs, materials and components to give you the top performance you can always count on. We have based our reputation on providing simple, dependable, straight forward design and labour – saving performance products by using the latest technology and energy efficient processes so that we can lead the industry and continue to be a name you can trust.

YOUR GRAIN HANDLING & LIVESTOCK SPECIALIST.

Flexahopper Plastics is a rotational molding company that is 100% Canadian owned and operated. Since 1967, we take pride in the quality and workmanship of our products.

We are committed to world-class customer service and investment in advanced processing techniques and quality control. Through membership in many professional and trade associations, as well as extensive research and development, we are successful in taking many complex and difficult to produce products to market.

We understand the challenges that the Agricultural Industry faces which is why we conduct extensive industry research to provide the market with the most cutting edge results to guarantee that our products fulfill your needs.

HOPPERS

UV resistant.

Bright colors for night vision.

Design allows for easy and complete clean out.

Won't sag or droop.

DOWN SPOUTS

Won't damage your equipment.

Directs grain without blowing around in the wind.

FEEDERS

UV resistant.

Design allows for easy clean out.

More durable than wood.
