

**FLEXAHOPPER PLASTICS LTD**

COMMITTED TO

# OIL & GAS.

---

For over 50 years Flexahopper has manufactured reliable and premium quality products to ensure that the **strictest safety standards** in the Oil & Gas Industry are met. We take pride in our reputation and **clean record for no spill or leakage in the field.**

Our commitment to excellence combined with customer input has helped us develop the most innovative and durable products in the industry.

# YOUR OIL & GAS SPECIALIST.

---

Flexahopper Plastics is a 100% Canadian owned and operated rotational molding plastics company founded in 1967 and headquartered in Lethbridge, AB.

Flexahopper Plastics is committed to world-class customer service, strong quality control, and continues to invest in advanced processing technologies. Through membership in many professional and trade associations such as ARM (Association of Rotational Molders), as well as extensive research and development, we are successful in taking many complex and difficult to produce products to market.

It takes more than just high-grade materials to produce a quality product. That's why, here at Flexahopper Plastics, our resources include cutting edge technology and expert service to assure complete customer satisfaction.

**Our commitment to quality is the link between our products and your safety.**

## FEATURES (FOR ALL CHEMICAL STORAGE TANKS)

Corrosion and chemical resistant

Rugged impact resistant polyethylene

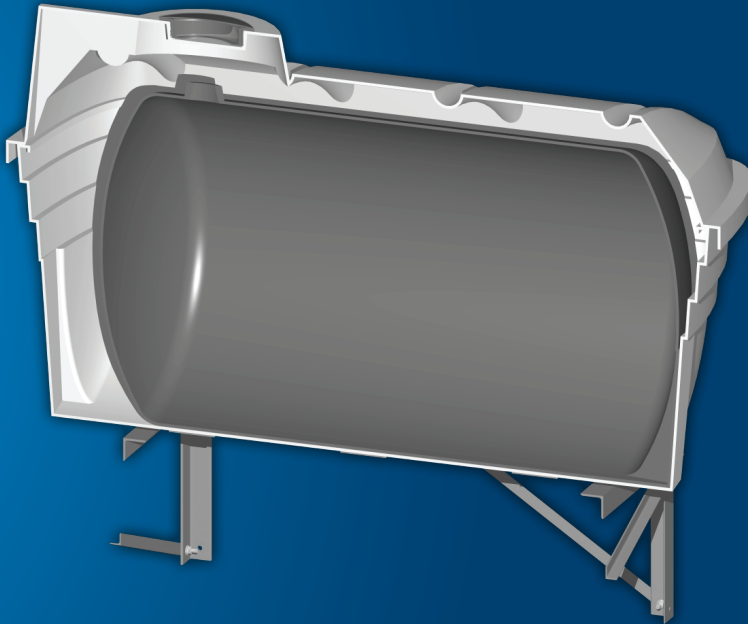

Outstanding resistance against deterioration from Ultra-Violet light

One piece seamless construction

Comes standard with vented lid and outlet fitting
